Additional Information: Clinicaltrials.gov NCT04990232

Data available: Yes

Data types: Deidentified participant data

How to access data: Additional Information: Data will be available to researchers on request subject to Sponsor restrictions. How to access data: Contact with sponsor (e-mail:

hiss@sepsis.gr) When available: With publication

When available: With publication

Supporting Documents

Document types: None

Additional Information

Who can access the data: Who can access the data: Any qualified researchers who engage in rigorous, independent scientific research

Types of analyses: Types of analyses: For rigorous, independent scientific research, access to anonymized, individual and trial-level data (analysis data sets), as well as other information (eg, protocols and Clinical Study Reports), as long as the trials are not part of an ongoing or planned regulatory submission is possible. This includes requests for clinical trial data for unlicensed products and indications.

Mechanisms of data availability: Mechanisms of data availability: Can be requested and will be provided following execution of a Data Sharing Agreement (DSA).

Any additional restrictions: Any additional restrictions: Access possible as long as the trials are not part of an ongoing or planned regulatory submission. Data will be accessible for 12 months, with possible extensions considered.
